2/14/66 Title: Against U-S Victory is FOR Communist Victory  
(Broadcast date)

Admiral William Raborn, Retired, is the man who is most responsible for the administration of the program that made the Navy's Polaris missile the powerful weapon that it is today. Adm. Raborn is now Director of the Central Intelligence Agency. Pres. Johnson chose Adm. Raborn for the job of running the CIA because Pres. Johnson knows how Adm. Raborn ran the Polaris submarine program. In the CIA as in the Navy, Adm. Raborn runs a tight ship. Adm. Raborn is running the CIA the way he thinks it should operate. In doing this, Adm. Raborn has developed opposition from two sources, from a domestic source and a foreign source. The home-grown opposition is from Congressmen who are intent on winning the world-wide conflict by making a friend of Russia. The foreign opposition comes from Russia, itself - from a "smear" campaign including forged documents put out by Russia's own secret police, the KGB.

And, what is <sup>it</sup> that the "love Russia" Congressmen don't like about Adm. Raborn's operation of the CIA? Adm. Raborn has instructed the CIA agents to get "all intelligence" on the Communists "wars of liberation" in Asia, Africa and Latin America regardless of how this information affects the "friendly relations" between the U-S and the Soviet Union. The CIA has been doing just that. Adm. Raborn has set up an around the clock watch so that he can report to Pres. Johnson before 7 o'clock every morning on what the Communists are doing to stir up trouble and where it will occur. Naturally, Russia does not like this. So, the Russian Secret police are manufacturing anti-CIA propaganda in the "world opinion" press. This hurts U-S relations with the Russians in the opinion of those Congressmen who hope to win the Cold War by winning the friendship of Russia. Allen and Scott report (quote) "Sen. Eugene McCarthy, Democrat of Minnesota, has asked Sen. William Fulbright, Democrat of Arkansas, Chairman (of the Senate Foreign Relations Committee) to initiate a CIA probe. Sen. Fulbright is considering the matter," end quote Allen and Scott. Our conclusion is this. The idea of coexistence is a weapon used by the Communists. That is demonstrated in the instance of the attack on Adm. Raborn's administration of the CIA. Sen. Eugene McCarthy and the millions of people in the United States who advocate coexistence, that is, living in peace with the Communists, are dupes.

Sen. McCarthy cannot be against Adm. Raborn's administration of the CIA and not be FOR what the Communists need to defeat U-S interests in "wars of liberation".
